

Friday Perimeter problems

- 1) ***A rectangle has a perimeter of 48cm. The width is 4cm. What is the length?***

- 2) ***Each side of a regular pentagon is 12cm. What is the perimeter of the pentagon?***
- 3) ***An oblong has a perimeter of 24 cm. What length could the sides be?***
- 4) ***A regular hexagon has a perimeter of 65.66. cm. How long is each side?***
- 5) ***A square has a perimeter of 64.16cm. How long is each side?***
- 6) ***Find the perimeters of these shapes. (Find the lengths of the missing sides!)***

7)

8) If the length of each square is 8 cm, what is the perimeter of the whole shape?

9) Millie has some star-shaped tiles. Each edge of a tile is 5 centimetres long. She puts two tiles together to make this shape. Work out the perimeter of Millie's shape.

10)

The perimeter of a square is 72 centimetres.

The square is cut in half to make two identical rectangles.

What is the perimeter of one rectangle?

11)

7. This shape is made from 4 shaded squares.

Not actual size

Calculate the perimeter of the shape.
