

## Bar Chart

Use the data collected yesterday to make a bar chart. Remember to use a simple scale. Then, label the items you collected data about. Next, remember a title so everyone knows what your bar chart is about. Can you colour your bars to make them more interesting to look at? **Finally, write 3-5 questions about your data for someone in your home to answer.**

Number of items

Types of materials

## Questions about my bar chart

1.

2.

3.

4.

5.

Question openers, words and phrases I could use in my questions:

How many more...

Least

Most
