The table shows the number of boars caught in the last month by this Viking family.

Name	Number of Boars
Freyda	19
Erik	27
Astrid	23
Leif	20

1. Who caught the most boars?
2. Who caught the least boars?
3. How many more did Erik catch than Leif?
4. How many more will Freyda need to catch to have the same number as Erik?
5. How many were caught altogether?

A graph to show the monthly number of visitors to the outdoor swimming pool.

1. How many people came to swim in June? _____
2. How many visitors did the pool have in September? _____
3. Which month had 1 less visitor than August? _____
4. How many more visitors came in July than in September? _____
5. What was the total number of people to visit the pool? _____
6. Why do you think there were no swimmers in March?

7. Why do you think some months are not shown on the chart?

8. Make up your own question about the graph.

Colour	Number of books read
3E	
3D	
3N	
3S	

Key

= 6 books

1. Which 2 classes read 45 books between them? _____
2. How many more children read in 3E than in 3N? _____
3. What is the difference between 3D and 3S? _____
4. Which class read the fewest books? _____
