

Quality of Education

Improve the quality of education through the development and implementation of the teaching and learning strategy. Continue to develop the curriculum to ensure a clear distinction between knowledge skills and understanding and that learning is a progressive continuum rather than a series of stand alone tasks.

Behaviour & Attitudes

Promote positive attitudes to learning through thoroughly embedding values. Ensure that bespoke plans are developed for those who find it hard to self-regulate. Explore and deliver a range of attendance initiatives to promote good attendance for all.

Personal Development

Provide pupils with a comprehensive curriculum which helps them to become active citizens and form healthy relationships and lifestyles. Raise the profile of child mental health enabling adults to support pupils and for pupils to have strategies to help themselves.

Leadership & Management

Develop leaders so they are confident and effective in ensure school improvement is maximised. Ensure subject leaders are well equipped to effectively lead their subjects, leading to quality provision for pupils. Implement effective support initiatives to ensure staff wellbeing remains high.

Early Years

Ensure the environment supports a well-planned and ambitious curriculum and meets the needs of all children. Develop reading provision to improve outcomes for all children
