

## Quality of Education

Expectations in the Teaching & Learning Strategy are met. The curriculum design ensures clear knowledge progression and good outcomes for all pupils. Assessment procedures for the foundation subjects are fully developed.

- Reading development (including phonics) ensures effective practice and learning.

## Leadership

Leaders at all levels are clear about their roles and responsibilities, as a result, their role in school improvement is both active and comprehensive. Links with parents, community and the wider environment are developed. Our learning environments are of a high standard and enhance pupil's learning. Environmental activities enhance pupil's understanding about caring for the local and wider environments.

## Behaviour and Attitudes

The vision and values underpin the behaviour policy and practice. A range of strategies, including emotional regulation and The Farm project, ensure pupil attitudes and well-being are high. Attendance and punctuality continue to improve.

## Vale View School Improvement Priorities 2021-2022

### Early Years

The new curriculum is embedded into everyday practice. High quality reading and phonics provision, alongside the implementation of the Teaching and Learning Strategy ensure good outcomes for all pupils.

### Personal Development

Children are given opportunities to develop into respectful and responsible citizens, who demonstrate a good understanding of diversity, equality and online safety. The school works to develop positive self-images, utilising Thrive approaches.
