Term 5

Our topic this term is 'Bugs and Beasties'. In Science we ask the BIG question, do we all need the same things to live? Every living creature goes through a life cycle. At each stage, their characteristics change and they develop in different ways. A caterpillar changes into a butterfly and humans learn new skills as they grow. Habitats enable creatures to be safe and have an environment to grow. A frog thrives in a cold, wet pond whereas humans flourish in the warm and dry. Eventually, the life of creatures come to an end. Is this the same for all living things? As great geographers we will then build on our fieldwork skills from last term to investigate the 'bugs and beasties' around us. We will use our map and learn simple compass and directional skills to help us navigate our way around the school grounds and beyond.

PE

We will have PE on Tuesdays. Please make sure children have PE kits in school, long hair is tied back and earrings are out.

Maths

In number maths we will be looking at recognising symbols for £ and p.

We will also be combining amounts to make a particular value. We will also find different combinations of coins that equal the same amounts of money and use to this learning to solve problems.

In topic maths we will be learning about measure. We will choose and use appropriate standard units to estimate and measure length/height in any direction (m/cm).

English

This term in English, we will be writing a fantasy character description about our book 'Beetle in the Bathroom'.

We will also be writing a non-chronological report about bugs.

Reminders

Home work should come into school on Mondays and will be sent home again on Wednesdays. Children should read at least 3 times a week- especially on Wednesdays. Please sign in the reading record to confirm your child has read. Children have their Purple Mash login and Times Table Rockstars login in their reading records.
