

YEAR 2 TERM 1

Curriculum Overview-

This term, our big question is: 'What does it mean to be healthy, and is it really important?'. As spectacular scientists, we will be exploring different hygiene routines, such as washing our hands and brushing our teeth, through fun and practical activities. We will also be learning about what makes a 'balanced diet' and why it matters. In DT, we will put our knowledge into action by designing and making our own pasta salads, making sure they follow the 'Eat Well Plate'.

English -

Our learning this term will be linked to our creative curriculum topic. Our class text is 'Dr Dog', a funny story about a clever dog who looks after his unusual family when they are sick. The children will begin by writing character descriptions and then retelling the story in their own words, adding creativity and detail. Later, we will move on to non-fiction, learning how to write instructions and create an information leaflet. This will link our English work with our topic learning and show how writing can be used for different purposes.

Maths -

In maths this term, we are focusing on place value. The children are building on their knowledge of numbers to 100 by exploring how numbers are made up of tens and ones, comparing and ordering numbers and using number lines. They will be developing their confidence in reading, writing, and representing numbers in different ways, which will provide a strong foundation for their future maths learning.

Key Vocabulary -

healthy

nutrition

affect

evaluate

hygiene

significant

Key Dates -

Our PE lessons will be on Tuesday. Children will need their full PE kit in school and earrings must be removed beforehand.
